

# "Smallholder Horticulture Empowerment & Promotion"

## Free and Guided Online Training - NELK

The SHEP approach is focused on "Market-Oriented Agriculture" and converts farmers mind from "grow and sell" to "grow to sell", doubling farmers' income in areas where it has been implemented. Participants are invited to a guided training where an expert will accompany them online in explaining and completing the NELK module. Participants who complete this course are eligible to join a JICA-sponsored training in May 2022.

**4 Sessions, 2-hours each, via Zoom**  
**always between 8.00 and 10.00 CET/Swiss time**  
**Trainer: Mr. Stephen Kioko, SHEP Expert**
